About Us

We are in the business of spices since 1921, among the oldest player in this field. This itself is a proof that our quality products are being appreciated by our valuable customers from ages.

Our experience helps us move towards the verge of excellence. We not only supply the spices but also carry all the knowledge about our products. With all these characteristics, we assure you with best service and quality products.

Since its inception, this journey of excellence has grown strong. Generations have passed by where each and everyday we assure to deliver our persistent efforts in providing the finest quality products to our customers.

We are supplying wide range of spices to areas of food industry and the consumer to desired specification. We have a team of qualified personnel, quality control setup and well equipped plant with sophisticated processing facility to meet exact need of customers.

All our products are cleaned, processed, graded, and packed in our processing facility designed by Buhler. Today, we process over 8000 MT of spices and seeds in our state of the art facility.

We are situated at UNJHA and RAJKOT - middle of extensive spice cultivating region of Cumin, Fennel, Coriander, Fenugreek, Ajwain, Dill, and Sesame seeds. Which enable us to procure the best - of - breed raw material.

Quality

Effective quality management is of vital concern within the food industry, so we have a comprehensive Quality Management System in place which exceeds the requirements of our customers.

- Adoption of new technology like automatic cleaning and sorting system Sortex (U.K.) designed and supplied by Buhler GmbH with aspiration channel & metal separator.
- Plant and products complying with FSSAI, FSSC 22000 & FDA standards.
- Highest quality standards and product deliverance on time.
- A long term assurance to excellence, both in products and service.
- Careful monitoring of all process to assure only best products are supplied.
- Dedicated staff and state of the art facilities.
- Our warehouses consists of, separate area of Raw Material, Finished Goods to ensure that there is no cross contamination with the finished goods.

Vision

The company's continual growth is testimony of our capability and commitment to adapt to the needs of an ever changing world.

To Challenge & Push the boundaries of Traditional Business by merging

- Advanced Technology
- New Ideas and Environmentally Sustainable Solutions in Farming, Processing and Quality.

Mission

Our mission is to be a Customer Centric, Environmentally Friendly, and Sustainable Enterprise who is able to deliver **TRUE VALUE** throughout the supply chain.
